

Tu BiShvat Tree for YFE

Jan 2020

Materials

Tree Branch

Modeling clay

Paper plate or cardboard for base

Construction paper for leaves

Scissors

Clear tape

Take your branch and break it if the end is too long.

Make a mound with the modeling clay on your base and stick in your branch. Make sure it is sturdy. If you need to, add more modeling clay.

Cut leaves from the colored construction paper.

Attach the leaves with clear tape by putting half the tape on the leaf and then wrap around the branch with the other half.

Keep adding leaves till your tree is full and beautiful.
